

Hyperballad
Whitley

For the intro, hammer-on the second finger of the C chord. 2-3-2-0-2

Verse: **C, F**

We live on a mountain
Right at the top
There s a beautiful view
From the top of the mountain
Every morning I walk towards the edge
And throw little things off
Like:
Car parts, bottles and cutlery
Or whatever I find lying around

It s become a habit
A way
To start the day

Chorus: **F, G, Am, G**

I go through all this
Before you wake up
So I can feel happier
To be safe up here with you

It s early morning
No one is awake
I m back at my cliff
Still throwing things off
I listen to the sounds they make
On their way down
I follow with my eyes til they crash
Imagine what my body would sound like
Slamming against those rocks

When it lands
Will my eyes
Be closed or open?

I go through all this
Before you wake up
So I can feel happier
To be safe up here with you
