A bloody flood could never mess these rooms up any worse It looked like Moe had used this room to grease and breed a horse Old gum and hairs and sticky rags, old bottles on the floors Gobs of spit and condom rubbers on the windows, walls, and doors

The lammy tried to make me clean out that crappy mess Or else he d fire me off my job and let me starve to death I laid aside my polish rag and I downed my dusting pan And I ve not seen the old Hot Rod nor that old town since then
