

**On And On And On**  
**Wilco**

Found some rough tabulature on this song and decided to work it out as itâ€™s not been anywhere except the viachicago forum. This should be pretty close?

Piano intro:

e   â€"â€"0                   -â€"â€"0

B   â€"8â€"       x8    â€"8â€"       x8

G   â€"11â€"               â€"11â€"

D   â€"10â€"               â€"9â€"

If youâ€™re a finger-picker you can alternate thumb, index, middle then ring (on the e) or with the thumb. (I think the brushing sounds better). If you are a piano player, it s F# G then E and B F# G then E. (This riff may change but I generally don t carry it the beginning so... it s all yours to figure out).

Chords:

**CM7** x3200x       x35500       8x998x

**Bm7** x2400x       x2403x       x2003x       x2423x       799777

**Am7** x0201x       575555

**G** 32000x       x2000x       355433

**D** xx0232       x5403x

I switch between these different voicings a lot so I figured I d share them all Do what think sounds best. I also play with a capo on 3, but that just fits my voice better, are for original album tuning. Either way, great song. Hope someone finds this useful.
