

**Please Be Patient With Me**  
**Wilco**

Ok? I?m not very good at finger-picking, so I?m mainly just gonna put the chords and you figure out the rest. I?ll write down a couple little places where you have to move your in order to get the notes, but for the ones that are just holding the chord shape, just to the song and figure it out.

(Also, I think Tweedy may do this in a different tuning because I hear a couple low that make it seem like he might do it in drop D. The need you to be patient part might have high E tuned to a D as well... but the way I ve figured it out works...)

CAPO 3

Chords used in this song (relative to capo):

C: x32013  
D6: x02231  
E7: 022130  
F: 133211  
Em: 022000  
\*F: 133xxx  
G: 320003  
Esus4: 022200  
Asus4: x02230  
D/Bb: x1023x  
G/B: x2543x  
F6: 13x231

Here?s how it goes?

Intro:

C D6  
E7 F  
Em

Verse:

C D6  
I should warn you

E7 F  
When I?m not well

Em

I can't tell

\*F G  
Oh, there's nothing I can do

\*F Esus4 Em  
To make this easier for you

A D/Bb G/B C G F6  
You're gonna need to be patient with me

---

Here are some of the riffs he plays on the verse:

-On the first F (?not well ), play open B string and then 1 again on the B string for little riff.

-The little lick for the "Oh but there's nothing I can do" part:

	*F	G
e	-----	
B	-----	
G	-----0-----	
D	-----3---2-----0-----0-----0-----	
A	-----3-----0h2-----	
E	-----3---3-----	

(obviously do the first half of that again before the Esus4 to Em)

-For "You're gonna need", Play A normally a moment to hit that 2 on the B string before go to the Asus4

-For the end of verse riff, the high notes are just:

	C	G	F6
e	---3---0-----3---0-----1-----1--0-----		
B	-----1-----0-----2-----3-----		
G	-----3-----		
D	-----		
A	-----		
E	-----		

---

Here is the rest of the structure of the song?

Verse (same as first):

I'm this apple, this happening stone  
When I'm alone  
Oh, but my blessings get so blurred  
At the sound of your words

I?m gonna need you to be patient with me

Interlude:

E7	F	Em	
*F	G	*F	Esus4 Em
Asus4	D/Bb	G/B	

Verse again (same):

How can I warn you when my tongue turns to dust  
 Like we?ve discussed  
 It doesn?t mean that I don?t care  
 It means I?m partially there

You?re gonna need to be patient with me

Outro:

First two chords same as end of verse?  
 Then instead of F6 go to E7 and then F like over ?When I?m not well.  
 Then G with riff like at end of verse  
 Then:

	C	C/G	C
e	-----0-----	-----0-----	-----0-----
B	-----3h5---3---	-----3---3---	-----3h5---3---
G	-----0-----	-----0-----	-----0-----
D	-----2-----	-----2-----	-----2-----
A	---3-----	---3-----	---3-----
E	-----3-----	-----3-----	-----3-----

And that?s it.  
 By the way, this song is amazing.
