

Backslider
Wild Belle

===== Wild Belle - Backslider =====

G - Em - C

Stranger
I don t see you like I used to
It was a thievery of my eye
So long
You keep chasing like a rooster
Everything you lay eyes on

So I ll flee, I ll fly
I don t have no choice
I would rather
I would rather die
Than live with you in this life
Than live with you in this life

Am - Em

Cause you re just a backslider every single day
Backsliding like a chain
You re just a capturer on a lonely chase
Backslide into your grave

G - Em - C

My babe
Guess he could stand a little cheatin
Because his heart is made of stone
And now
I ain t got tears to cry, I m leavin
Even in your arms I m alone

You go back to your old flame
And she ll love you once again
I m just a blockade at this game
Your lips are lies
And your eyes the same

Am - Em

You re just a backslider every single day
Backsliding like a chain

You re just a capturer on a lonely chase
Backslide into your grave

You re just a backslider every single day
Backsliding like a chain
You re just a capturer on a lonely chase
Backslide into your grave
