Will And The People

D A A7 D

Looking for an answer, looking for a rhyme, I don t want to cry when the stars align. **A**7 I can kick and say fuck as many times as I like, But my body s gonna give it up when it s my time. **A**7 Oooooheeeeh, oooooheeeeh.. Give a lot at Christmas and treasure what you get. Daddy was a bank robber, you could be a vet. Live a little, go and get caught red handed, It never did pay to be the teacher s pet. Propellerhead junkies all are fine, With child prodigies in the chorus line, F#m They re looking for someone new to find, To push, push things forward. When I open my eyes, I look depressed. F#m It s cause I ve realized, That I m just following and following.. But I m not following any more.. F#m I m just 24 and all these people.. I don t know anything, it s just everyone knows. Propeller heads following and following and following and following. Following, following, following, following, following, following, F#m Bm - Break

O-o-oooh propellerheads, pro-pro-propellerheads,
O-o-oooh propellerheads, pro-pro-propellerheads.
Picking up the pieces, puzzling the plan,
Sitting in bed with the biscuitsand.

Writing on my wall makes me feel at home.
