

**Founding Fathers**

**Will Hoge**

**A**

I am an American man

**G D A**

I vote I work I pray

I get up at the crack of dawn

**G D A**

Every day but Saturday

I used to have a pension,

**G D A**

Yeah I used to have a plan

My friends mean the world to me

**G D A**

We just don't mean that much to the man

**D A**

I still love this country

**D A D**

Even in its darkest days

**F#m D**

But I bet our founding fathers are turning over

**E A**

in their graves

Corporations count as people

But people don't count as much

And Wall Street don't concern themselves

With the middle class and such

We bailed 'em out the first

Because they're too damn big to fail

If I would been that bad with my own cash

Somebody would have sent my ass to jail

Chorus

Lead

Chorus

Four years in the army

And then four years back in school

But still I can't find a job

And now I feel just like a fool

Democrats, republicans

Who's to blame it's hard to tell

Sometimes I think we'd be better off

If they all just went to hell

Oh let 'em all go to hell

Chorus
