Hearts on Fire

A **G**

Hey, maybe I m lost

D

I m overwhelmed

F

Out of this place.

Like a boy, lost in the rain

When I hear your name

And I see your face

C

I could stay all night

D

Throw my cares into the wind

C

Fighting so hard this time

D

Don t know what else to do

A **G**

Hearts... Hearts are on fire

D

I m on the wire

F

Falling for you

(Falling for you... falling for you... falling for you)

My loves been missing I m told

Left out in the cold

You re warming on my heart

And the pain

It disappears,

Whenever you re near

Wherever you are

Hearts hearts are on fire

I m on the wire

Falling for you

I know, there s no straight line

It s different this time

I m falling for you

(Oh yeah)

Could this be what I wanted... this time?

(Falling for you... falling for you... falling for you)

Hearts, hearts are on fire

I m on the wire

Falling falling for you

I know it s different this time

There s no straight line

I m falling for you

(Ooh ooh yeah yeah falling for you)
