## Hearts Of Fire Will Young

Hearts on Fire

Hey, maybe I m lost

I m overwhelmed

Out of this place.

Like a boy, lost in the rain When I hear your name And I see your face

C

I could stay all night

Throw my cares into the wind

Fighting so hard this time

Don t know what else to do

Hearts... Hearts are on fire

I m on the wire

Falling for you

(Falling for you... falling for you... falling for you)

My loves been missing I m told Left out in the cold You re warming on my heart And the pain It disappears, Whenever you re near

Wherever you are

Hearts hearts are on fire I m on the wire Falling for you I know, there s no straight line It s different this time I m falling for you

(Oh yeah)

Could this be what I wanted... this time?

(Falling for you... falling for you... falling for you)

Hearts, hearts are on fire
I m on the wire
Falling falling for you
I know it s different this time
There s no straight line
I m falling for you

(Oooh oooh yeah yeah falling for you)
