Leave Right Now

C G
I m here
G C G
Just like I said
G C G D
Though its breaking every rule I ve ever made
C G
My racin heart
C G
Is just the same
C G D
Why make it strong to break it once again?

C D
And I d love to say I do
C G
Give everything to you
C D
But I can never now be true

So I say

C D G
I think I d better leave right now
Before I fall any deeper
C D G
I think I d better leave ri-ight no-ooow

Feelin weaker and weaker
C D G
Somebody better show me how
G
Before I fall any deeper
D G
I think I d better leave right now

I m here

So please explain

Why you re openin up a healin wound aga-ain

I m a little more careful

Perhaps it shows

But if I lose the highs, at least I m spared the lows

Now I tremble in your ar-arms

What could be the ha-arm

To feel my spirit calm

So I say

I think I d better leave right now

Before I fall any deeper

I think I d better leave ri-ight no-ooow

Feelin weaker and weaker

Somebody better show me how

Before I fall any deeper

I think I d better leave right now

I wouldnâ€™t know ho-ooow to say

How good it feels seeing you today

I see youâ€™ve got your smile back

Now you say your right on track

But you may never know why

Once bitten twice is shy

If Iâ€™m proud perhaps I should explain

I couldnâ€™t bear to loose you again

Mmm mmm mmm

I think I d better leave right now

Before I fall any deeper

I think I d better leave ri-ight no-ow

Feelin weaker and weaker

Somebody better show me how

Before I fall any deeper

I think I d better leave right no-ow

Yes I will

I think I d better leave right now

Before I fall any deeper

I think I d better leave ri-ight no-ow

Feelin weaker and weaker

Somebody better show me how

Before I fall any deeper

I think I d better leave right now
