

**Mend Your Heart**  
**William Fitzsimmons**

Standard Tuning

Mend Your Heart - William Fitzsimmons (Tabbed by Braden McKinnon aka soul\_blazer)

Such a pretty song from such an amazing musician. All his stuff is great!

**G**                      **A**                      **D**  
She is like the water where i clean my baby  
**G**                      **A**                      **D**  
floating from the front into the back to keep me  
**G**                      **A**                      **D**  
warm enough to cover me from getting chilly  
**G**                      **A**                      **D**  
cool enough to hide me from the heat

**G**                      **A**                      **D**  
She is like a splinter that i caught in my toe  
**G**                      **A**                      **D**  
running from the dog that chases me  
**G**                      **A**                      **D**  
sharp enough to teach a lesson that i must learn  
**G**                      **A**                      **D**    **G**  
soft enough to never make me bleed

(Chorus)

**A**                      **D**                      **Bm**  
and i will find will you there  
**G** **A**                      **D**  
and i will mend your heart  
**G** **A**                      **D**                      **Bm**  
and i will find you there  
**G** **A**                      **D**  
and i will mend your heart

She is like a cigarette inside an ashtray  
nothing but a fire sets her free  
filling up my lungs until my body needs her  
holding on so i can never breathe

She is like a gravestone sitting in the church yard  
crooked from the ground in which she sleeps  
whispering my name until i go to meet her  
underneath the ground she finds her peace
