```
Bring It On
Willie Nelson
Intro 4x: D D/A
D
They say there is no game without pain
                            D
               G
Well, I must be gaining a lot
              G
                          D
                                          Α
And I give it all that I got to bring it on
D
Well, it seems that I ve been here before
                                р
                G
                                              Α
So if this means that there is more, bring it on
Refrão:
G
It s written in the good book
                                                   D
That we ll never be asked to take anymore than we can
                     Α
Sounds like a good plan
            D
So bring it on
D
If I can t see it or feel it, I don t worry said someone
               G
                           D
                                        А
And I ll have to say I agree, bring it on
D
Well, I know you re out there cause I hear you breathing
                       G
                                   D
                                                   Α
But it still don t mean nothing to me, so bring it on
Refrão:
G
It s written in the good book
                                                   D
That we ll never be asked to take anymore than we can
                     Α
Sounds like a good plan
So bring it on
