you just have to look into her eyes

Chorus:

G# Eb Fm
She`s an assassin of love x2

G# Eb Bb
ooh ooh ohh x2

you need her in your waking hours
you call her name all through the night
sorrow is your constant companion
an empty heart with nothing left to fight

Chorus

what`s happened to you
do you remember a memory has gotten down ? (not sure about this line)
look all around you you`ve been swallowed
too weak to fight as you`re drowned in
like a moth oh so truly
to a flame it closely flies

all the blossoms open slowly
and from the trees so quickly die

Chorus
