

**Jesus Does The Dishes**  
**Wingnut Dishwashers Union**

[Verse]

Well we are kids building models of a world  
that we might wanna live in  
And sorting feelings in our stomach  
is this liberation or starvation?  
But have we made it anywhere at all  
if the dishes are never done?  
If we can't live without dishwashers,  
how do we live without cops?  
And so you're asking me  
Who does the dishes after the revolution?  
Well, I do my own dishes now  
I'll do my own dishes then  
And it's always the ones who don't who ask that fucking question

[Verse]

Well I don't believe in God but I'm also not an atheist  
because the universe is chaos  
but chaos picks favourites  
And lately I've been thinking about  
How I love Jesus  
Because Jesus was a dirty homeless  
Hippie peace activist  
And he said drop out and find God!  
to anybody who would listen
