I don t know what I am  
So just go put on another sham  
What to I don t know what I am  
So I ll just go put on another sham  
What to do when you re always subjected?  
What you feel when you re always neglected?  
Try to run but there s nowhere to find  
No sanctuary  
Do you know what you are ?  
I have this feeling that we didn t go far  
What we do when we re always suspected?  
What we feel when we re always rejected?  
Try to run but there s no where to find  
No sanctuary  
I don t know what I am  
So just going to put on another sham  
What to do when you re always subjected?  
What you feel when you re always neglected?  
Try to run but there s nowhere to find

No sanctuary
