

Youth Of America
Wipers

music, and still have a huge fanclub today. Their official Homepage is

http://*

Also Nirvana covered two songs of them, the one is D7 and Return of the rat

They come from Portland/Oregon, and I think they are totally unestimated.

Props go to John Sixkiller

D

Youth of America is living in the jungle

F5

Fighting for survival with the wrong place to go

D

Youth of America the pressure s all around

F5

The walls are coming down the walls are crumbling down on you

G Bb F5

It is time we rectify this now

Eb Bb

We ve got to feel it now

Eb Bb F D

Got to feel it now, now, now...

Down the middle til you don t know who you are

Stay around until you don t really matter

They ll try to put you six feet under the ground

It is time we rectify this now

We ve got to save it now

Got to save it now, now, now...

[The rich get richer and the poorer get poorer]

[Now there s no place left to go]

[Got to get off of this rot... cause I don t want to be born here again...]

[Do you want to be born here again?]

[This just ain t no existence...]

[Beware of those guys in disguise...]

[We re living in the jungle...fighting for survival...]

[Can t wait much longer...]

Hurry...

It is time we rectify this now

We ve got to heal it now

Got to heal it now, now, now...
