

Errors Of My Way  
Wishbone Ash

verse 1

**F#**                **E**                **A**                **E**                **F#**  
I didn t know what day it was that day,  
**F#**                **E**                **A**                **E**                **F#**  
Felt just like falling down on my knees to pray.  
**F#**                **E**                **A**                **E**                **F#**  
Looked at myself, and all that I could say  
**F#**                **E**                **A**                **E**                **F#**  
Was, I think I see the errors of my way .

verse 2

**F#**                **E**                **A**                **E**                **F#**  
There in the glass there was something caught my eye,  
**F#**                **E**                **A**                **E**                **F#**  
Although I try through my sighing not to cry.  
**F#**                **E**                **A**                **E**                **F#**  
See where I am, and what I try to say,  
**F#**                **E**                **A**                **E**                **F#**  
Just so I ll look at the errors of my way.

verse 3

**F#**                **E**                **A**                **E**                **F#**  
Guess I got no one around to pull me through.  
**F#**                **E**                **A**                **E**                **F#**  
I just need someone to turn to, yes, I do.  
**F#**                **E**                **A**                **E**                **F#**  
Doin my best just to change my yesterday,  
**F#**                **E**                **A**                **E**                **F#**  
Then I won t have no more errors of my way.
