```
Way Down South
Wishbone Ash
[Intro]
C D G x2
[Verse]
The funds are low and the debts are high
                   D
I need to smile but I have to sigh
              Dm
So just one kiss before I go
             Dm
I ll find a place and I ll let you know
[Chorus]
              C F
I think I see a future way down south
I ll find some time for thinking
They say that life is slower way down south
Where summer spends the winter
way down south
[Verse]
I m leaving town and I won t be back
Making moves and I m making tracks
                   Dm
I don t know quite where I ll end up
                 Dm
Somewhere warm with any luck
[Chorus]
              C F
I think I see a future way down south
I ll find some time for thinking
                 C F
They say that life is slower way down south
Where summer spends the winter
way down south
```

```
[Solo]
C Dm G
[Chorus]
Am C F
I think I see a future way down south
       F
I ll find some time for thinking
  Am C F
They say that life is slower way down south
Where summer spends the winter
C F G
way down south
C F G
way down south
[Instrumental]
