

**Religious Songs**

**Withered Hand**

Listen to the song to get the chord timings right, and I recommend using a combination of strumming patterns and fingerpicking with lots of small ornaments in the picking structure to keep it floaty. Don't go overboard though. The only chord I am unsure of is the G/E so any corrections would be good.

I knew you so long I ran out of cool things to say  
I still run into friends that we both had yesterday  
And they ask me how I am I lie say that I m doing fine  
They still manage to tell me on an easy-lay holiday  
But that s ok remember you thought I was gay

Chorus 2:

Well I beat myself off when I sleep on your futon  
Walk in the rain with my second-hand suit on  
Beat myself off when I sleep on your futon  
I walk in the rain and I m thinking

If I happen to die tonight in my sleep  
I ll have cum and not blood on my hands
