

Forgiven
Within Temptation

HI !

It s my first tab ever, so sorry for mistakes, and because I want to sing along to the guitar, I ve made the whole song darker. It s not as Sharon sings.

It s VERY simple, just play Em, C, G and D, like this.

Em C G D
 Couldn't save you from the start

Em C G D
Love you so it hurts my soul

Can you forgive me for trying again, your silence makes me hold my breath

For that time who passed you by

Then it continues all the time through the whole song! A perfect beginner song and it s really fun!

Enjoy
