

**Bring Down The House  
Wizards**

**Gm**                      **Cm**                      **Gm**                      **Cm**                      **Fm**  
My thoughts are all in line deep in my blank mind  
                 **Bb**                      **Eb**                      **Cm**  
They never show, I can t find the words  
                 **Fm Eb Cm**  
To heal this silent world

**Ab**                      **G**                      **Cm**                      **Ebm**  
But if I had them brought back to me one last time  
                 **Ab**                      **Eb**                      **Fm**  
Then I would find all the words I can t find  
**Bbm**                      **Eb**                      **G**                      **Fm**                      **Eb Cm**  
And I would write the song laying asleep inside  
                 **Fm Eb Ab**                      **Eb**  
Deep there in my blank mind
