

**Back To Back Acoustic
Wolfgang**

this isnt a full tab/ chord chart, all of my tabs are collaboration works for rare songs that do not have a large enough following to be widely tabbed due to the bands lack of air time or lack of global mobility. this is simply the result and findings of hours of watching and re watching videos, listening to songs until they are annoying, and googling until im gaggled with gurgle.

chances are if you found this you are trying to find a full tab~
