My buddy Vernon loved his bourbon
And everything else that burned
My girl Ophelia only drank tequila
Her favorite part was the worm

We were playing by the tractor with an old firecracker
And a can of gasoline

There was one quick blast that burned all the grass
Brightest thing that I had ever seen

VERSE 6

I saw my grandpappy flying behind my daddy
They picked me up where I fell down
The field was burning Ophelia and Vernon
Slithered back into the ground

VERSE 7

Momma came running I tried to yell something
But my mouth couldn't form the words
She didn't see me up there so high in the air
With all the butterflies and the birds
