alone"
G **Bm** **C** **D**
With your grandma gone its just me and him but he sure ain t the best

Sure he ll catch every stick that I throw but sometimes he s just a pest

We had a dog that we called Dozer cause he rooted through the dirt
Em **G** **C** **G**
That night he wandered up so hungry eating cracked corn set out for the birds

Well you can t replace your best buddies
C **D**
So be good to them while you can
Em **G**
And if you don t show it that lump in your throat
C **D** **G**
Reminds you, you miss your best friends

VERSE 2

He used to run beside my tractor play with the kids in the yard
He d catch every stick and kill every snake and tree every coon on the farm
Like all dogs Dozer got older and his playing days came to an end
He d whimper with every step that he took, it hurt to see the suffering of my
friend
So I hauled him up to the pasture where he played years ago
I patted his head, said, "I ll miss you my friend" and I sent him to where
the good dogs go

VERSE 3

Well Grandpa, he met up with Grandma the morning he passed away

Dusty sat all day on the porch waiting for Grandpa to come out and play
It was evening before we knew, I got there late in the day
Dusty watched as that ambulance hauled his best friend away
