**A** **C#m** **D** **A**  
I said, "Grandpa he must be a good one waiting for you, chewing on his bone".  
**F#m** **A** **D** **A**  
Grandpa said, "Well, to tell you the truth sometimes I wish he d just leave me  
alone".  
**A** **C#m** **D** **E**  
With your grandma gone its just me and him but he sure ain t the best  
**F#m** **A** **D** **A**  
Sure he ll catch every stick that I throw but sometimes he s just a pest  
**A** **C#m** **D** **A**  
We had a dog that we called Dozer cause he rooted through the dirt  
**F#m** **A** **D** **A**  
That night he wandered up so hungry eating cracked corn set out for the birds

CHORUS

**D** **A**  
Well you can t replace your best buddies  
**D** **E**  
So be good to them while you can  
**F#m** **A**  
And if you don t show it that lump in your throat  
**D** **E** **A**  
Reminds you, you miss your best friends

VERSE 2

He used to run beside my tractor play with the kids in the yard  
He d catch every stick and kill every snake and tree every coon on the farm  
Like all dogs Dozer got older and his playing days came to an end  
He d whimper with every step that he took, it hurt to see the suffering of my  
friend  
So I hauled him up to the pasture where he played years ago  
I patted his head, said, "I ll miss you my friend" and I sent him to where  
the good dogs go

VERSE 3

Well Grandpa, he met up with Grandma the morning he passed away

Dusty sat all day on the porch waiting for Grandpa to come out and play  
It was evening before we knew, I got there late in the day  
Dusty watched as that ambulance hauled his best friend away
