Sinner s Love

VERSE 1

**D** **E**  
When you looked at me with eyes made of fire  
**D** **E**  
I never had a chance my heart was gone  
**D** **E**  
When you found me there my soul was dying  
**G** **D** **E**  
Love is blind, well I say love is wrong

VERSE 2

You needed someone in the hole that you ve been makin  
I needed a place to hide, a place in your heart  
With your hand in mine, we left hell, bound for heaven  
I promised I d pull down a star

CHORUS

**B** **D** **A** **E**  
It never occurred to me that god and devil could agree to stand against a sinner  
s love  
**B** **D** **A** **E**  
I guess I must be blind years are gone and still I try to to find where we went  
wrong

VERSE 3

Every morning when the sun came shining  
I d pick up the telephone and talk to you  
Every evening when the stars were gliding  
Telling lies and hoping they d come true

VERSE 4

One night I had a dream that everything I wanted  
10,000 angels came and laid it at your door  
And when I turned around you were somewhere hiding  
Thinking you would die for something more

**Am** **B7**  
Or find someone to tell me where she s gone and why

VERSE 5

I guess we both agree that someone wasn't changing  
You take the road ahead and I'll keep holding on  
I guess it's a crazy dream but every night I'm thinkin'  
Thinkin' you'll be there when I get home

VERSE 6

I tried to call you but I never got an answer  
I tried to write you but I never found the words  
And when I got downtown and try to find another  
I see your face on every girl
