Standard Tuning

Mother Midnight

<b>E</b>		<b>B</b>		<b>A</b>
You came up at midnight you showed me the sun				
The evil you give I could taste on your tongue				
And mountains like leopards curled into a sleep				
To live with the dark and the doubt from beneath				
<b>B</b>	<b>A</b>	<b>E</b>		
mother midnight all is cool				

Oh low flyin clouds oh I will be false  
Repeat it a flashers like fat paper dolls  
In a sand covered city that smells of perfume  
an angel persuades you to give up your room  
mother midnight all is cool

.....

And this is the way I like you best in the world  
strung out and white like a tired little girl  
but where are the flowers you have planted my dear?  
has some evil come and removed them from here?  
mother midnight all is cool

mother midnight all is cool
