

Yele

Wyclef Jean

Verse

A      E      Bm      Bm      then      A      E      Bm      D

A      E      Bm      Bm      then      A      E      D      D

Chorus (Yele, Yele, Yele)

A      E      Bm      Bm      again      A      E      Bm      Bm

A      E      Bm      D      then      A      E      D      D

I think this is slightly more accurate.  
though the Bm n D are relative. The changes  
are deliberate. Quality reggae progressions  
are always like this For instance, u can t  
find much right Bob Marleytab cuz Even though  
it maybe a four chord progression. One will  
always get left out and another doubled up  
somewhere.
