```
            Dm    C              F
Thought I was ready, ready for someone else
         Dm        C                      F
But every time I get ahead of myself, every time I get ahead of myself
              Dm      C              F
Thought I was rock steady, that I didn t need no help
         Dm        C                      F
But every time I get ahead of myself, every time I get ahead of myself

Dm      C                                   F
Guess I went ahead and jumped the gun again
    Dm      C                        F
Some shitty situation that I put you in
      Dm      C            F
And I know we poured champagne
Dm                  C                      F
Maybe we was just too quick to celebrate

            Dm    C              F
Thought I was ready, ready for someone else
         Dm        C                      F
But every time I get ahead of myself, every time I get ahead of myself
              Dm      C              F
Thought I was rock steady, that I didn t need no help

        Dm                    C              F

I thought I d cleaned the slate
Dm                  C              F
