Needles are piercing through my skin
I ll tell you the feeling, what it s like
If life is just all about deception
It s all pain, a part of the fairy tale
But desire to play with God s own will
Should I trade the breath of my life for freedom?
(In the rain) I m calling you, dear
(To Find the way) Can t you see me standing right here?
(To Feel my pain) Life s bleeding from fear
(To Find its place) I will give it straight from my vein
Needles are piercing through my skin,
I don t know the meaning of the fucking life
Don t you ever let life pass you by

They say as if it takes me somewhere
Just let me swallow the faith by injection
Let blood be rushing to my head, my love
I've played with this game before
To find a piece of my true self, I'm lost within!
(In the rain) I'm calling you, dear
(To Find the way) Can't you see me standing right here?
(To Feel my pain) Life's bleeding from fear
(To Find its place) I will give it straight from my vein
I.V. in my vein to feel less its pain
Can you strip away the mystery of the world?
I'll let it suffer for its lie
Till the shape of the shadows fades
Till forever fades away
I'm calling you, dear.
Can't you see me standing right here?
Life's bleeding from fear.
I will give it straight from my vein.
(In the rain) I'm calling you, dear
(To Find the way) Can't you see me standing right here?
(To Feel my pain) Life's bleeding from fear
(To Find its place) I will give it straight from my vein
