

Warrior

Xavier Rudd

He was a warrior in every way
And he was always listening
A dedication to peoples displaced
And he was always listening
If a little birdy flew into his space
He was always listening
And with the spirit of the ancient ways
He was always receiving

He said come with me people
Stand up with me people
As one and as equals
Let s honour all people
Come with me people
Stand up with me people
As one and as equals
Let s honour all people

Honour all people
Honour all people
Honour all people
Honour all people

She was a goddess in every way
And she was always listening
