Verse Riff x4

[Verse 1]

```
A       E           D           E
This street has changed so much
A           E           D           E
A line of fortresses, look but don t touch
A           E           D           E
I d like to call on my neighbours one day
A           E           D           E
But their Doberman won t look the other way
```

[Chorus]

```
E           B       D           A
There s one thing I d like to know
G           D           A       B
Where did the ordinary people go?
```

[Verse 2]

```
A           E       D           E
In my street I don t know a soul
A           E       D           E
