

Mary
Yellow Ostrich

I realized there wasn't a chord submission for this song, and I thought there needed to be one, so here you go!

G **C**
Mary says it's okay,
G **C**
she can see the future:
Em **C** **Em** **C**
everything turns around; Everything turns around

G **C**
Terrors may be coming-
G **C**
they are only games.
Em **C** **Em** **C**
Everything turns around; Everything turns around

G **C**
Sirens may be sounding.
G **C**
Roads are closing down.
Em **C** **Em** **C**
I am a true believer; I am a true believer.

G **C**
So grab your pills and pillows.
G **C**
Take what you'll remember.
Em **C** **Em** **C**
Everything turns around; Everything turns around.
