Letra y acordes de Back Home

(Lyric and music by *Yellowcard?*)
Intro
```
SIm           LA RE          SOL
SIm           LA RE          SOL
SOL     RE/FA#    RE
```

```
RE                  LA/DO#
Don t know what I was looking for
          SOL
when I went home I found me alone
RE            LA/DO#
Sometimes I need someone to say,
             SOL
 You ll be alright!    What s on your mind? .
```

```
LAsus4                       SOL
But the water s shallow here
                        RE/LA
And I am full of fear
                             SOL
And empty handed after two long years.
```

```
RE                              SOL
Another sunny day in California
RE                                  SOL
I m sure back home they d love to see it
RE/LA                                SOL/SI
But they don t know that what you love is ripped away
LA/DO#                          SOL
Before you get a chance to feel it.
```

```
SIm           LA RE          SOL
SOL     RE/FA#    RE
```

```
RE                LA/DO#
Back home I always thought
               SOL
I wanted so much more now I m not too sure
RE            LA/DO#
`Cause sometimes I miss knowing someone s
  SOL
there for me and feeling free.
```

```
LAsus4                      SOL
Free to stand beside
                             RE/FA#
The ocean in moonlight
                                SOL
And light myself a smoke beneath
                              RE
The dark Atlantic sky.

RE                                  SOL
Another sunny day in California
RE                                       SOL
I m sure back home they d love to see it
RE/LA                                    SOL/SI
But they don t know that what you love is ripped away
LA/DO#
Before you get a chance...
SOL                                 RE
Before you get a chance to feel it.

SIm                           LA      SOL
Everybody here is living life in fear of falling out of line
SIm                                      LA  SOL
Tearing lives apart, breaking lots of hearts just to pass the time
SIm                           LA              SOL
And the eyes get red in the back of your head
This place will make you blind
SIm                          LA    SOL LA RE
Put it all behind me and I ll be just fine.

RE                                  SOL
Another sunny day beneath this cloudless sky
RE                                       SOL
Sometimes I wish that it would rain here
RE/LA                              SOL/SI
And wash away the West Coast dreaming from my eyes
LA/DO#                             SOL
There s nothing real for them to see here.

RE                                  SOL
Another sunny day in California
RE                                         SOL
I m sure back home they d love to see it
RE/LA                                   SOL/SI
But they don t know that what you love is ripped away
LA/DO#
Before you get a chance...
SOL                                      RE
Before you get a chance to feel it.

SIm           LA RE           SOL
SOL     RE/FA#    RE
```
