G   G/F#   G/E
Man once sang to me
            G/C   G/A   G
Look at you saving the world on your own
      G   G/F#   G/E
And I wonder how things gonna be
           G/C   G/A   G
 Cause the time here it passes so slow

     G/C   G/E
In a city of devils we live
  G/C   G/E

A city of devils we live

G   G/F#   G/E
Find somebody to learn
           G/C   G/A   G
Boy you gotta love someone more than yourself
             G   G/F#   G/E
I can feel the fire of the city lights burn
    G/C   G/A   G
It s hard to find angels in hell

Chorus:

```
        G    G/F#  G/C
Flying alone I
                        G           G/F#  G/C
Feel like I don t belong and I,
                            G       G/F#  G/C
Can t tell right from the wrong, why,
                        G/E  G/F#   G
Have I been here so long

     G/C                    G/E
In a city of devils we live
   G/C                  G/E
A city of devils we live

G           G/F#            G/E
Questions I can t seem to find
       G/C          G/A       G
To the answers I already have
         G                G/F#        G/E
And you can t see the sky here at night
     G/C                G/A           G
So I guess I can t make my way back

Chorus

G/C  G/E  G/C  G

G/C         G/E                       G/C
What if I wanted you here right now
            G                         G/C
Would you fall in the fire burn me down
     G/E                    G/C
If I wanted you here right now
            G                         G/C
Would you fall in the fire burn me down
     G/E                    G/C  G  G/E
If I wanted you here right now...

     G/C                    G/E

In a city of devils we live
