Bm   G   F#m   Bm
Hello, you, how was the rest?
            G   F#m   Bm
You made it through, but nevertheless
      G F#m   Bm
I got you out on a wire.
        G F#m   Bm
You be love and Iâ€™ll be a liar.
        G   F#m   Bm
Tell it all and fill up the air,
            G   F#m-Bm-A-G
But make it loud cause nobodyâ€™s there
F#m-Bm-A-G
And nobodyâ€™s there
F#m-Bm-A-G
And nobodyâ€™s there

D   F#m
Stop, turn, take a look around
                    Bm
At all the lights and sounds.
              Bb
Let them bring you in.
D   F#m
Slow burn, let it all fade out,
              Bm
Pull the curtain down.
                  Bb
I wonder where youâ€™ve been?

Bm   G   F#m   Bm
Make it new, but stay in the lines.
      G   F#m   Bm
Just let go, but keep it inside.
    G F#m   Bm
Smile big for everyone,
      G   F#m   Bm
Even when you know what theyâ€™ve done.
                      F#m   Bm

They gave you the end but not where to start;
```
          G               F#m        Bm
```
Not how to build, how to tear it apart.
```
          G         F#m          Bm
```
So tell it all and fill up the air,
```

But make it loud cause nobody’s there

I’ve got a way to work this out,

I’ve got a way and you know how. [x7]

You earned everything you found,

And painted faces frown.
