

**What Appears
Yellowcard**

[Verse]

C
Slow steady hands waving their last goodbye
D A#
They've come a long way
F
They've carried me, they've carried me through waking dreams
C
And soft whispered words echoing all this time
A#
Speak in a strange tongue
F
But somehow I have recognized it all along

[Chorus]

C Dm C
I turned myself blue, but forced my way through
A# C
And I'm still out here looking for answers
Dm C
I've ended up wrong the faster I've gone
C F
But I know I am finding the answers

C
Remembering every attempted flight
Gm A#
I don't want to stay here
F
I told myself I listened close I filled my ears
C
Long nights alone

No, you can't understand
A#
You just want to transform
F
An empty stage, a fit of rage and you are born

C Dm C
I turned myself blue, but forced my way through
