Note : This is the end part of a fabulous piece the gates of delirium
I think it was released as a single at the time. This is why this
beautiful song has its own autonomy.

The guitar is played with a bottle-neck, the long slides are symbolised
with a / .

I have put the chords between brackets. these are simple chords, you can
hear them in your right ear while listening to the record. Sometimes the
bass is different from the fundamental note of the chord, I have put it
after a / .
