

Heavens Not Enough

Yoko Kanno

Hi, this is the first time I submit a tab. So sorry in advance if there are any mistakes

actually a beginner)

Since I ve been searching for ages for this tab, I finally tried to do it by myself,

by some other tabs you can find on UltimateGuitar.com

But still, I didn t managed to find the chords for the end of the song, so if you can

me and give me any suggestions/corrections, I will gladly edit this tab to complete it.

& See !

Edit: suggestion given, mate! :)
