

East Nashville Easter
Yonder Mountain String Band

Tabbed by AJ C.

Key: A Minor

Intro:

G F C G (several times)

Verse 1:

G F C G
Engine s running hot

G F C G
But now it s burnin down

G F C G
Everyone says that this is going well

G F C G
But I can hear every sound

Four gray walls
Make it all seem right
But everything looks wrong
In these cheap hotel lights

Chorus:

C G
Going up and down

C G
Down and out

Cheap cologne and expensive perfume
I ve never seen so many lost souls in my life
Air so thick, so busy and loud
One crazy young man standing out in the crowd

[Chorus]

G F C G (**A** little faster this time)

One of these days when the sun comes up and I m tossin and turnin alone
I m gonna pull myself up outta this state
I m gonna make everything seem alright, alright

Know how it feels with the sun in my eyes, still that heartbroken wind s at my door
One of these days I m gonna wreck myself and this engine won t run no more, no more

[Chorus (x2)]

Mandolin riff transcribed:
