The rain it comes, the rain it goes  
The question is, she friend or foe  
The story-teller looks to his toes, he s stuck here  
The dragon s breath is on my neck  
Which way is home, hold on a sec  
The bartender put a bottle of beer on the table

Many people, they believe that Jesus came here to relieve  
All the problems that we breathe on each other  
And I don t care just what you do,  
Or what you think, that s up to you  
You see, those thoughts of yours are not new to me at all

**Am** **G**  
And is it these thoughts that made you believe  
**Am** **G** **G/F#**  
That there s nothing here so you shall leave  
**Em** **D** **G G C G G G C G**  
While I sit here with my guitar in my hand

Chorus:

**Am** **G**  
And like the youth I looked above  
**Am** **G** **G/F#**  
Feeling stranded without love  
**Em** **D** **G**  
The time was wrong, and you left me in a hole  
**D** **C** **G**  
You left me in hole (you left me in a hole)  
**D** **C**  
You left me in hole

[Instrumental Break]

A hungry baby starts to cry, an old man s about to die  
And all I can do is sit back and sigh, what s my problem  
Ignore the problem, that s the key  
Said the woman beneath the tree  
If your eyes are closed, you can t see the sunrise

The phone, it rings, who could it be  
Well, it ain t her, and it s not for me  
Forgetting s as easy as 1-2-3 my friends say  
Her face is still all too clear, her leaving me was my biggest fear  
Something s got to help me steer away from her

You have your life, and I have mine,  
Maybe we ll meet again some other time  
Down the long road, on another plain

[ Chorus ]

You left me in hole (you left me in a hole)...
