And you walked right out that s what I feel
Em D G G C G G G C G

The rain it comes, the rain it goes
The question is, she friend or foe
The story-teller looks to his toes, he s stuck here
The dragon s breath is on my neck
Which way is home, hold on a sec
The bartender put a bottle of beer on the table

Many people, they believe that Jesus came here to relieve
All the problems that we breathe on each other
And I don t care just what you do,
Or what you think, that s up to you
You see, those thoughts of yours are not new to me at all

Am **G**
And is it these thoughts that made you believe
Am **G** **G/F#**
That there s nothing here so you shall leave
Em **D** **G G C G G G C G**
While I sit here with my guitar in my hand

Chorus:

Am **G**
And like the youth I looked above
Am **G** **G/F#**
Feeling stranded without love
Em **D** **G**
The time was wrong, and you left me in a hole
D **C** **G**
You left me in hole (you left me in a hole)
D **C**
You left me in hole

[Instrumental Break]

A hungry baby starts to cry, an old man s about to die
And all I can do is sit back and sigh, what s my problem
Ignore the problem, that s the key
Said the woman beneath the tree
If your eyes are closed, you can t see the sunrise

The phone, it rings, who could it be
Well, it ain t her, and it s not for me
Forgetting s as easy as 1-2-3 my friends say
Her face is still all too clear, her leaving me was my biggest fear
Something s got to help me steer away from her

You have your life, and I have mine,
Maybe we ll meet again some other time
Down the long road, on another plain

[Chorus]

You left me in hole (you left me in a hole)...
