

Snow On The Pines

Yonder Mountain String Band

Yonder Mountain String Band - Snow On The Pines

D **G**
Well the wind from the mountain
F **D**
To the valley, to the town below
D **G** **F** **D**
Burns baby with an anger that with every second grows
D **G** **F** **D**
Bringing to the people desperation, sense of fear
D **G** **F** **D**
Howlin like a lion til the roar be all you hear
G **F** **D**
And all that is left is snow on the pines
G **F** **D**
And all that is left is snow on the pines

Darkness it is coming
You can feel it in the breeze
Bringin the whole damn town down
Bringin the town down to its knees
No man that walks this earth is a match baby for its fear
Rising, rising, rising til its roar be all you hear
And all that is left is snow...
And all that is left is...

In your tracks it will freeze you
It will drop your ass to the ground
Hell upon this earth
Has not so easily been found
Praying for salvation to a sky so big and gray
Like a mountain by the end of the day
And all that is left is snow on the pines
And all that is left is...

[Repeat verse 1]
