Sometimes Ive Won
Yonder Mountain String Band

Audio (live version): https://www.youtube.com/watch?v=Vf_xO3wtpfw

[Verse 1]
```
             G                       D
Sometimes I ve won, sometimes i ve lost
               C           G                 A
Somtimes I ve walked away before the dice were tossed
        F                           C
It s not that I chose to be a gamblin  man
                 F             C             F             G
But you re not left with many options walkin  roads that never end
           C                      G
And I d love to imagine that there s some place for me
         C        G         F
At the end of this long, lonely road
           F        G                 C             F
I keep tryin  my best, I sure could use a little rest
             Dm           G         C
And some help findin  my way home
```

[Verse 2]
```
             G                   D
I m not the best, that s ever been
C        G                    A
Long ago I vowed I d find the light I lost back then
             F                           C
And you think that you d be better all alone
                 F           C             F                 G
When there s noone there who loves you and no place to call home
      C                          G
Well I m growin  tired of this search for my soul, with
C        G             F
All of these rocks in the road
           F        G                 C                 F
I keep tryin  my best, sure could use a little rest
             Dm           G         C
And some help findin  my way home
```

[Verse 3]
```
             G                   D
A life like mine, must be reasons why
       C           G                 A
So I shouted all the names I knew for God up to the sky
         F                           C
And I listen for his answer every day
```

```
          F               C                    F                 G
But I grow worried by the waitin , he should know just what to say
   C                    G
I d love to imagine that there s some place for me
        C        G        F
At the end of this long lonely road
       F        G          C              F
I keep tryin  my best, sure could use a little rest
          Dm           G        C
And some help findin  my way home

[Bridge]
Am                                 G
Well I ve had friends, they ve come and gone
                  Bb                              F
And I ve seen love shine like a sunset & last about as long
   Am                 G
In the end we re all walkin  different roads
           Bb                          C              D
But we re lookin  for the same signs, the ones that lead us home

[Verse 4]
                  G                 D
Sometimes I ve won, sometimes I ve lost
                C        G                 A
Sometimes I ve walked away before the dice were tossed
         F                      C
It s not that I chose to be a ramblin  man
           F              C              F           G
But I see bright lights in the distance and this road it never ends
          C                       G
And I d love to imagine that theres some place for me
       C        G         F
At the end of this long, lonely road
         F        G          C              F
I keep tryin  my best, sure could use a little rest
          Dm           G        C
And some help findin  my way home

[Outro]
        F          G              C              F
I keep tryin  my best, sure could use a little rest
          Dm           G        C
And some help findin  my way home
```
