

Sock And Awe
You, Me, and Everyone We Know

Step down tuning

C
I was lost for a while
C
I was knee deep in denial
F
I was lost for a while
C
Without my stride my step my style
C
It took a lot of digging up bones
C
In my backyard nightly
C
I m half a bottle in
C
I m just now feeling feisty
F
A few things could slip
F
So you ll have to forgive me
C
No more walking the line
C
I m getting downright frisky
Dm **Em**
I ve kept it clean, but now it s high time
F **C**
For every dirty, awful word
Dm **Em**
You ve had your chance to make your peace
E **Am**
But now I m gonna make sure this hurts
F
Yeah, this is Shock.
Fm
This is Awe.
C
This is War.

Same thing for the other part of the song

This is the Fuck You to Richard Reines
Who told me I should lose some weight
Come to think of the pain you do

You screwed our fans, so we screwed you
And up to this point, I think we've been pretty cool
About losing tours to bands with only half of our pull
I wouldn't call it bitter, but I've grown to feel slighted
There's a party going on, we're living life uninvited
We kept it clean, but now it's high time
For every dirty, awful word
You've had your chance to make your peace
But now I'm gonna make sure this hurts
Yeah, this is Shock.
This is Awe.
This is War.
Yeah, this is Shock.
This is Awe.
This is War.
