

Bite My Tongue
You Me At Six

Bite My Tongue By You Me At Six
Tabbed by Laura and Tegan!
Capo on 4th
A cover version, designed for acoustic guitar.

[Verse 1]

Em

I hate to break it to you but
You re just a lonely star

C

I try to bring you down but

Am

A level isn t good enough

Em

You always do as you please
So I m going to follow suit
And take a seat

C

And watch you fall apart

Am

Cause in the end
What are you without me?

Em

I slow this down cause I know that you can t keep up

C

Oh maybe I, maybe I was wrong from the start

Am

I might be proud, but at least I m proud of something

Em

You ve taken pride in becoming nothing

[Chorus] (x2)

Em

You keep me on the edge of my seat

C

I bite my tongue so you don t hear me

Am

I wanna hate every part of you with me

Em

I can t hate the ones who made me

[Verse 2]

(same as verse 1)

I m married to the music
For better or for worse
You say that I m privileged but
My gift is my curse
I can t recall the last time
Someone asked me how I was
Last I checked I was a fucking wreck
I called for help and no one showed up
I sit in the dirt

[Chorus]

(same as the first one)

You keep me on the edge of my seat
I bite my tongue so you don t hear me
I wanna hate every part of you with me
I can t hate the ones who made me

You keep me on the edge of my seat
I bite my tongue so you don t hear me
I wanna hate every part of you with me
I can t hate the ones who made me

[Oli Sykes]

Just forget what you ve learned
Just forget what you ve heard
The truth just confirmed
I can t bare the sight of you anymore.
You ve become what I hate
Sold yourself for a bit of fame
Now that the wolves have closed the door
You wanna drag me down some more
Fuck you
Fuck you

[Chorus]

(same as the first one)

You keep me on the edge of my seat
I bite my tongue so you don t hear me
I wanna hate every part of you with me
I can t hate the ones who made me

You keep me on the edge of my seat
I bite my tongue so you don t hear me
I wanna hate every part of you with me
I can t hate the ones who made me
