

Crash

You Me At Six

D

Wait, where you say you ve been?

Bm

Who you been with?

Where you say you re goin ?

A

Who you goin with?

Keep me on my toes,

G

keep me in the know.

D

Wait, keep me in your skin,

Bm

keep me in your chest.

I ll wait for it to start,

A

I ll wait for it to end.

Keep me on my toes,

G

keep me in the know.

Bm

But when I looked at her,

Asus4

G

I thought of only you.

Bm

Asus4

G

If only there was proof I could use to show it s true.

D

We were young,

we were in our teens.

Bm

It wasn t real love,

spent behind bars.

A

Oh it s sad to think,

we just let it be.

G

Prisoners of love.

D

It s so easy for it to be,

Bm

something second guessed.

Easy to read,

A

don t let it become,

a meaningless routine.

G

It s meaningless to me.

Bm

But when I looked at her,

Asus4

G

I thought of only you.

Bm

Asus4

G

If only there was proof I could use to show it s true.

D

Bm

Just crash, fall down,

A

G

I ll wrap my arms around you now.

D

Bm

Just crash, it s our time now,

A

G

to make this work second time around.

D

We grew up,

we worked and changed our ways.

Bm

Just like wildfire,

been burning now for days.

A

Tearing down those walls,

nothing s in our way.

G

I said, nothing s in our way.

D

And I know,

I ve said this all before,

Bm

but opposites attract.

We try and run away,

A

but end up running back.

And all I want to do,

G

all I want to do,

is lie down and...

D

Bm

Crash, fall down.

A

G

I ll wrap my arms around you now.

D

Bm

Just crash, it s our time now,

A

G

to make it work, second time around.

D

Bm

Ohhh crash, fall down.

A

G

Just crash, fall down.

D

Bm

Just crash, fall down.

A

G

Just crash, fall down.
