

**If I Was
Young Rebel Set**

Band website: <http://www.myspace.com/youngrebelset>

Capo on 4th fret!

I used to claim in this very spot that the picking was very easy. But after getting some E-Mails (and listening to the song closely) I must say it is indeed a bit tricky. So I tabbed it out. Note that this is still a slightly simplified version. The guitarist plays some more bass notes, but if they were in the tab that would only confuse, so I left them out. It will sound great if you play it like this.

If you want the 100% full real tab (or have any other comments) write me at [herr.rey\(at\)gmail.com](mailto:herr.rey(at)gmail.com). Have fun! ;)
