

Simplify?

Young the Giant

E **B9**
Everything I say only seems to complicate it
F#m **A**
Every little fight is just another night wasted
E
Are we gonna lose? Is it gonna last?

B9
Worry about the future, worry bout the past
F#m **A**
Think we re gonna break before I get a chance to say this

E
Don t wanna live without you

E **B9** **F#m** **A**
Staring in your eyes, everything simplifies
E **B9** **F#m** **A**
Leave it all behind, everything simplifies
E **B9** **F#m** **A**
All we need is nothing more when everything simplifies
E **B9** **F#m** **A**
You and I need nothing more, everything simplifies

E **B9**
Stressin over this, stressin over that, we re fallin
F#m **A**
Like the whole world is banging on the door calling

E
Are we gonna lose? Is it gonna last?
B9
Worry about the future, worry bout the past
F#m **A**
Filter out the noise, focus on my voice, we re fallin

E **B9** **F#m** **A**
Staring in your eyes, everything simplifies
E **B9** **F#m** **A**
Leave it all behind, everything simplifies
E **B9** **F#m** **A**
All we need is nothing more when everything simplifies
E **B9** **F#m** **A**
You and I need nothing more, everything simplifies

F#m **A**
Why must we complicate

E **B9**

Every breath we take?

F#m **A** **E** **B9** **F#m** **A**

Why can't you see we'll be alright?

E **B9**

Nothing disappears

F#m **A**

Even the pain we've been through

E **B9**

But all I need is here

F#m **A**

Don't wanna live without you

E **B9** **F#m** **A**

All we need is nothing more when everything simplifies

E **B9** **F#m** **A**

You and I need nothing more, everything simplifies
