Younghearts - This Love

Chords: **D Bm F#m A**

or Capo on 2nd: C Am Em G (thats the way the younghearts play it live)

The truth in short
Someones got to love someone more
It s all a power struggle

The truth here now
The pair of us are too far proud
To say we need each other

So hold your tounge
Words cannot erase the damage done
We ll only hurt each other

So keep your drugs keep your wine
Whatever helps you pass the time
You ve got your life and i ve got mine my lover

Cause darling truth be told

This love, this love can t last forever
This love, this love won t last
This love, this love won t last forever
This love, this love can t last

The thing you ve chose
We re judging by the pant around your nose
And want to lose it better

So was it fait or was it fair
Or was it love that lead us here
I could not see what you tell me my dear

Cause darling all i know

This love, this love won t last forever
This love, this love can t last
This love, this love won t last forever
This love, this love can t .. woohohoho

Still I cannot give up
I go to bed and i sleep and i dream of love

My heart is frozen stuck
I go to bed and i sleep and i dream of you
i dream of you

Cause darling truth be told

This love, this love can t last forever
This love, this love won t last
This love, this love won t last forever
This love, this love can t last

Hold your tounge
You re not leaving here with me
We were good, you re gone
Shut the door, i tell you leave (2x)
